ESI Announces Fourth Quarter and Full Year Fiscal 2018 Results

May 8, 2018

PORTLAND, Ore., May 08, 2018 (GLOBE NEWSWIRE) -- Electro Scientific Industries, Inc. (NASDAQ:ESIO), an innovator of laser-based manufacturing solutions for the microtechnology industry, today announced results for its fiscal 2018 fourth quarter and year ended March 31, 2018. Financial measures are provided on both a GAAP and a non-GAAP basis. Non-GAAP results exclude the impact of purchase accounting, equity compensation, restructuring, and other items shown in the non-GAAP reconciliation table.

Fourth Quarter and Fiscal 2018 Financial and Operational Highlights

- Fourth quarter orders of \$111.8 million, reflecting 36% year over year growth. Fiscal 2018 orders of \$451.4 million, up 144% from fiscal 2017.
- Fourth quarter and fiscal 2018 revenue of \$113.4 million and \$367.9 million, respectively; each more than doubled the revenue in fiscal 2017
- Backlog of \$148.4 million, primarily expected to ship in the first half of fiscal 2019
- Fiscal 2018 GAAP operating margin of 20.6%. Non-GAAP operating margin was 27.4%.
- Fiscal 2018 GAAP EPS of \$3.27 and non-GAAP EPS of \$2.78. For the fourth quarter GAAP EPS was \$2.10 and non-GAAP EPS was \$1.02, exceeding one dollar for the first time in recent history.
- Fiscal 2018 operating cash flow of \$67.4 million, leading to total cash and investments balance of \$125.0 million

Fourth Quarter Results

Fourth quarter revenue was \$113.4 million, compared to \$49.9 million in the fourth quarter of last fiscal year and \$110.8 million last quarter. GAAP net income was \$75.1 million or \$2.10 per diluted share, compared to a net loss of \$17.9 million or \$0.54 per share last year, as the Company's strong financial performance over the last twelve months triggered the reversal of our tax valuation allowance, resulting in a fourth quarter tax credit of approximately \$41 million. On a non-GAAP basis net income was \$36.5 million or \$1.02 per diluted share, compared to \$2.9 million or \$0.09 per diluted share last year and net income of \$35.6 million or \$0.99 per diluted share last quarter.

Michael Burger, ESI's president and CEO, stated, "We delivered another quarter of exceptional financial results, which closed out a defining and transformative year for ESI. Our team executed well and capitalized on strong market conditions, positioning us for future success."

Orders in the fourth quarter were \$111.8 million, compared to \$82.3 million one year ago. Burger continued, "Overall, our markets enabled strong bookings in the fourth quarter, primarily as a result of demand for flex circuit drilling. Demand for our semiconductor and component test products remained strong and total book to bill was 0.99, even as we delivered our highest quarterly revenues in recent history."

GAAP gross margin was 48.3%, compared to 36.5% in the fourth quarter of last year. Operating expense was \$20.0 million, down from \$36.3 million last year. Operating income was \$34.7 million, or 30.6% of sales, compared to a loss of \$18.1 million in the year-ago quarter.

Non-GAAP gross margin was 49.2%, up from 45.7% one year ago, on significantly higher revenues. Non-GAAP operating expenses decreased year over year from \$20.1 million to \$18.8 million as a result of the completion of our restructuring activities, and non-GAAP operating income was \$37.0 million, or 32.6% of sales, up from \$2.7 million, or 5.4% of sales, in last year's fourth quarter.

First Quarter 2019 Outlook

Based on current market and backlog conditions, revenues for the first quarter of fiscal 2019 are expected to be between \$97 and \$111 million. Non-GAAP earnings per diluted share is expected to be \$0.75 to \$0.95.

Burger concluded, "We enter our fiscal 2019 with a product portfolio that is retaining or growing market share. In this coming fiscal year we expect to introduce significant new products that will expand our addressable market, extend our competitive advantage, generate incremental revenue, and increase our exposure to secular growth drivers. Our markets will naturally cycle, and our visibility into the timing of those cycles remains limited. That said, the long-term technology trends and drivers indicate solid growth across our markets, and our new products should enable us to retain or grow share. Through the cycles our technology advantages and lower fixed cost base should allow us to generate solid earnings in all market conditions."

The company will hold a conference call today at 5:00 p.m. ET. The session will include a review of the financial results, operational performance and business outlook, and also a question and answer period.

The conference call can be accessed by calling 888-419-5570 (domestic participants) or 617-896-9871 (international participants). The conference ID number is 48069661. A live audio webcast can be accessed at www.esi.com. The webcast will be available on ESI's website for one year.

Discussion of Non-GAAP Financial Measures

In this press release, we have presented financial measures which have not been determined in accordance with generally accepted accounting principles (GAAP) and are therefore non-GAAP financial measures. Non-GAAP, or adjusted, financial measures exclude the impact of purchase accounting, equity compensation, restructuring, reversal of tax valuation allowance, inventory and goodwill write-downs, and other items. We believe that this presentation of non-GAAP financial measures allows investors to assess the company's operating performance by comparing it to prior periods on a more consistent basis. We have included a reconciliation of various non-GAAP financial measures to those measures reported in accordance with GAAP. Because our calculation of non-GAAP financial measures may differ from similar measures used by other companies, investors should be careful when comparing our non-GAAP financial measures to those of other companies.

About ESI

ESI's integrated solutions allow industrial designers and process engineers to control the power of laser light to transform materials in ways that differentiate their consumer electronics, wearable devices, semiconductor circuits and high-precision components for market advantage. ESI's laser-based manufacturing solutions feature the micro-machining industry's highest precision and speed, and target the lowest total cost of ownership. ESI is headquartered in Portland, Oregon, with global operations and subsidiaries in Asia, Europe and North America. More information is available at www.esi.com.

Forward-Looking Statements

The statements contained in this press release that are not statements of historical fact, including statements regarding expected shipment of backlog, our positioning for future growth and success, our expected financial results for the fiscal 2019 first quarter, including revenue and non-GAAP earnings per diluted share, our expectations regarding market share of our product portfolio, the introduction of new products, and their ability to expand our addressable market, retain or grow share, extend our competitive advantage, generate incremental revenue, reduce cyclicity and increase our exposure to secular growth drivers, our belief that our markets will naturally cycle, and our expectations regarding the effect of long-term technology trends and drivers and our ability to generate solid earnings in all market conditions, and other statements containing the words "believes", "expects", "anticipates," "continue," "will," "may" and similar words, constitute forward-looking statements that are subject to a number of risks and uncertainties. These forward-looking statements are based on information available to us on the date of this release and we undertake no obligation to update these forward-looking statements for any reason. Actual results may differ materially from those in the forward-looking statements. Risks and uncertainties that may affect the forward-looking statements include: the risk that anticipated growth opportunities may be smaller than anticipated or may not be realized; risks related to the relative strength and volatility of the electronics industry; the health of the financial markets and availability of credit for end customers and related effect on the global economy; the volatility associated with the industries we serve which includes the relative level of capacity and demand, and financial strength of the manufacturers; the risk that customer orders may be reduced, canceled or delayed; our ability to respond promptly to customer requirements; the risk that we may not be able to ship products on the schedule required by customers, whether as a result of production delays, supply delays, or otherwise; our ability to develop, manufacture and successfully deliver new products and enhancements; the risk that customer acceptance of new or customized products may be delayed; the risk that large orders and related revenues may not be repeated; our need to continue investing in research and development; our ability to hire and retain key employees; our ability to create and sustain intellectual property protection around its products; the risk that competing or alternative technologies could reduce demand for our products; the risk that we may not be successful in penetrating new or adjacent markets; the risk that the incorporation of Visicon's vision technology does not give us a competitive advantage; the risk that our new products may not gain acceptance in the marketplace; the risk that new products may not be introduced to the market in the anticipated time frame or at all; risks associated with our restructuring efforts; foreign currency fluctuations; the risk that duties or tariffs could be imposed or increased on goods imported or exported by us; the risk that changes to policies regarding immigration and visits to the United States could negatively impact our ability to hire or retain and train qualified personnel or our ability to operate internationally on an integrated basis; the company's ability to utilize recorded deferred tax assets; taxes, interest or penalties resulting from tax audits; and changes in tax laws or the interpretation of such tax laws.
