SOLICITATION AND REVOCABILITY OF PROXY

The enclosed proxy is solicited on behalf of the Board of Directors of Electro Scientific Industries, Inc., an Oregon corporation, for use at the Annual Meeting of Shareholders to be held on August 21, 2014. The Company will bear the cost of preparing and mailing the proxy, proxy statement and any other material furnished to the shareholders by the Company in connection with the annual meeting. Proxies will be solicited by use of the mail and the internet, and officers and employees of the Company may, without additional compensation, also solicit proxies by telephone, fax or personal contact. Any person giving a proxy in the form accompanying this proxy statement has the power to revoke it at any time before its exercise. The proxy may be revoked by filing an instrument of revocation or a duly executed proxy bearing a later date with the Corporate Secretary of the Company. The proxy may also be revoked by affirmatively electing to vote in person while in attendance at the meeting. However, a shareholder who attends the meeting need not revoke the proxy and vote in person unless he or she wishes to do so. All valid, un-revoked proxies will be voted at the Annual Meeting in accordance with the instructions given.

Common Stock is the only outstanding authorized voting security of the Company. The record date for determining holders of Common Stock entitled to vote at the Annual Meeting is June 13, 2014. On that date there were 30,136,402 shares of Common Stock outstanding, entitled to one vote per share. The Common Stock does not have cumulative voting rights.

MULTIPLE SHAREHOLDERS SHARING THE SAME ADDRESS

If you and other residents at your mailing address each own shares of Common Stock in street name, your broker or bank may have sent you a notice that your household will receive only one annual report and proxy statement. This practice, known as "householding," reduces the Company's printing and postage costs. If any shareholder residing at that address wishes to receive a separate annual report or proxy statement, write or telephone the Company as follows: Investor Relations, Electro Scientific Industries, Inc., 13900 NW Science Park Drive, Portland, Oregon 97229-5497, (503) 641-4141. Contact the Company in the same way if you and other residents at your mailing address are receiving multiple copies of the annual report and proxy statement and wish to receive a single copy in the future.

PROPOSAL 1: ELECTION OF DIRECTORS

Pursuant to the Company's Bylaws, the Board of Directors is divided into three classes, with the term of office of one class expiring each year. The terms of Edward C. Grady and Barry L. Harmon expire in 2014. Messrs. Grady and Harmon are nominees for re-election. These nominees were recommended by the Corporate Governance and Nominating Committee. Under Oregon law, if a quorum of shareholders is present at the 2014 Annual Meeting, the directors elected will be the two nominees for election as directors for a term ending in 2017 who receive the greatest number of votes cast at the meeting. Abstentions and broker non-votes will have no effect on the results of the vote. Unless otherwise instructed, proxy holders will vote the proxies they receive for Messrs. Grady and Harmon. The Company's Board of Directors has approved and adopted the Corporate Governance Guidelines and Governance and Nominating Committee Charter that are on the Company's website at <http://investors.esi.com/governance.cfm>. Under the Company's Corporate Governance Guidelines, which reflect the current standards for "independence" under the NASDAQ Stock Market listing standards and the Securities and Exchange Commission rules, two-thirds of the members of the Board of Directors must be independent as determined by the Board of Directors. The Board of Directors has made the following determinations with respect to each director's independence:

Director	Status (1)
Frederick A. Ball	Independent
Richard J. Faubert	Independent
Edward C. Grady	Not Independent (2)
Barry L. Harmon	Independent
David Nierenberg	Independent
Jon D. Tompkins	Independent

- (2) Mr. Grady is President and Chief Executive Officer of ESI and therefore is not independent in accordance with the standards set forth in the Corporate Governance Guidelines.

The Company has also adopted a Code of Conduct and Business Practices applicable to the Company's directors, officers, employees and agents of ESI and its subsidiaries and a Code of Ethics for Financial Managers. Copies of the Company's Code of Conduct and Business Practices and Code of Ethics for Financial Managers are available on the Company's website at <http://investors.esi.com/governance.cfm>.

BOARD LEADERSHIP STRUCTURE AND RISK OVERSIGHT

Board Leadership

In accordance with our Corporate Governance Guidelines, it is the practice of the Board of Directors to select a director as Chairman of the Board who qualifies as independent as defined in the Corporate Governance Guidelines. If the Chairman of the Board ceases to qualify as independent, the Board of Directors will designate an independent director to serve as Lead Director. The Company believes that this structure enhances the Board's oversight of management, strengthens the Board's ability to communicate its views to management, increases the Board's independence and otherwise enhances our governance.

Risk Oversight

The Board as a whole is responsible for overseeing our risk management function and certain members of the Company's senior management team are expressly authorized by the Board to be responsible for implementation of the Company's day-to-day risk management processes. In connection with the Board's annual strategic and financial plan review, senior management makes a multidisciplinary presentation to the Board on significant strategic, operational, financial, legal and compliance risks facing the Company. At the other three quarterly Board meetings, senior management provides an update to the Board on specific risk-related issues.

Additionally, the Board is actively involved in oversight of certain risk areas conducted primarily through committees of the Board, as described in the charters of each of the committees. The Compensation Committee is responsible for overseeing the management of the Company's executive compensation plans and incentive arrangements and routinely reviews these programs to ensure that incentives do not present inappropriate risk and are aligned with shareholder interests. The Audit Committee oversees management of financial, financial reporting, information technology, legal and insurance related risks and meets with management on at least a quarterly basis. As frequently as necessary, the Audit Committee Chair meets with senior management, the Company's outside counsel and the Company's independent auditors to discuss any hotline complaints, allegations of violations of the Code of Ethics and other ethical, legal or compliance matters. The Nominating and Corporate Governance Committee manages risks associated with the qualifications and independence of the Board of Directors and potential conflicts of interest. The Board satisfies their risk oversight responsibility through reports by each committee chair

regarding the committee's considerations and actions, as well as through regular reports directly from management responsible for oversight of particular risks within the Company.

FISCAL YEAR

The Company's fiscal year consists of 52 or 53 weeks ending on the Saturday nearest March 31. Accordingly, all references to fiscal year 2014 in this document are to the 52-week period ended March 29, 2014; references to fiscal year 2013 are to the 52-week period ended March 30, 2013 and references to fiscal year 2012 are to the 52-week period ended March 31, 2012.

BOARD COMPENSATION

During fiscal year 2014, the Board of Directors was compensated for seven meetings, which included telephonic meetings, and each member of the Board of Directors attended at least 75 percent of the aggregate number of the meetings of the Board of Directors and the committees of which he was a member. All directors were reimbursed for all reasonable expenses incurred in attending meetings. Directors are expected to attend shareholders meetings. All directors then in office attended the 2013 annual meeting of shareholders.

Directors who are not employees of the Company received the following fees to the extent applicable to the individual directors: (a) an annual cash retainer of \$60,000 for the service as the Chairman of the Board; (b) an annual cash retainer of \$30,000 for (non-Chairman) Board service, plus \$1,500 for each Board meeting attended, \$1,000 for each Committee meeting attended and \$750 for each telephonic meeting attended; and (c) an annual fee of \$10,000 for service as chair of the Audit Committee and an annual fee of \$8,000 for service as chair of a committee other than the Audit Committee. The Company also provides for reimbursement in the amount of \$2,500 every two years for continuing education programs relating to the performance of duties of a director of a public company.

Non-employee directors also receive equity grants as a component of their total compensation. Stock options were granted prior to fiscal year 2007. Beginning in fiscal year 2007, the Company has granted restricted stock units (RSUs) rather than stock options.

On May 9, 2013, each director who was not a full-time employee of the Company was granted 7,500 restricted stock units under the 2004 Stock Incentive Plan. These units vested one hundred percent on the date of grant.

Cash amounts credited to the deferred compensation plan will earn a rate of return based on investment funds selected by the participants from a prescribed menu of investment options. The Board of Directors has determined that each of Messrs. Walker, Ball and Faubert is an audit committee financial expert as defined in SEC rules. The Audit Committee Charter requires the Audit Committee to review any transaction with a related person or in which a related person has a direct or indirect interest and to determine whether to ratify or approve the transaction, with such ratification or approval to occur only if the Committee determines that the transaction is fair to the Company or otherwise in the interest of the Company. The Audit Committee meets with management and with representatives of ESI’s independent registered public accounting firm, KPMG LLP, including meetings without the presence of management. The Audit Committee met nine times in fiscal year 2014.

The Company maintains a Compensation Committee that currently consists of Barry L. Harmon (Chairman), David Nierenberg and Jon D. Tompkins. All members of the Compensation Committee have been determined to be independent by the Board of Directors in accordance with the NASDAQ Stock Market listing standards and Securities and Exchange Commission rules. Grady served on the Compensation Committee until February 23, 2014 when Mr. Grady was appointed President and Chief Executive Officer of the Company, at which point Mr. Nierenberg replaced Edward C. Grady on the Committee. The Compensation Committee has been delegated authority to set officers’ compensation and to grant awards under the Company’s stock incentive plan. For additional information about the Compensation Committee, see “Compensation Discussion and Analysis,” set forth below. The Compensation Committee met six times in fiscal year 2014.

The Company maintains a Corporate Governance and Nominating Committee that currently consists of Jon D. Tompkins (Chairman), Barry L. Harmon and David Nierenberg. All members of the Corporate Governance and Nominating Committee have been determined to be independent by the Board of Directors in accordance with the NASDAQ Stock Market listing standards and Securities and Exchange Commission rules. The Corporate Governance and Nominating Committee assists the Board of Directors in fulfilling its oversight responsibilities related to seeking candidates for membership on the Board of Directors, assessing the corporate governance policies and processes of the Board of Directors and reviewing from time to time the policies of the Board of Directors related to director qualifications, compensation, tenure and retirement. The Corporate Governance and Nominating Committee met four times in fiscal year 2014.

Shareholders may recommend individuals for consideration by the Corporate Governance and Nominating Committee to become nominees for election to the Board of Directors by submitting a written recommendation to the Corporate Governance and Nominating Committee c/o Chairman of the Corporate Governance and Nominating Committee, Electro Scientific Industries, Inc., 13900 NW Science Park Drive, Portland, Oregon 97229-5497. Communications should be sent by overnight or certified mail, return receipt requested. Submissions must include sufficient biographical information concerning the recommended individual, including age, five-year employment history with employer names and a description of the employer’s business, whether the individual can read and understand financial statements, and board memberships, if any, for the Corporate Governance and Nominating Committee to consider. The submission must be accompanied by a written consent of the individual to stand for election if nominated by the Board and to serve if elected by the shareholders. Recommendations received by January 31, 2015 will be considered for nomination for election at the 2015 Annual Meeting of Shareholders. Recommendations received after January 31, 2015 will be considered for nomination for election at the 2016 Annual Meeting of Shareholders. Following the identification of the director candidates, the Corporate Governance and Nominating Committee will meet to discuss and consider each candidate’s qualifications and shall determine by majority vote the candidate(s) whom the Corporate Governance and Nominating Committee believes would best serve the Company. In evaluating director candidates, the Corporate Governance and Nominating Committee will consider a variety of factors, including the composition of the Board as a whole, the characteristics (including independence, age, skills and experience) of each candidate, and the performance and continued tenure of incumbent Board members. The Committee believes that candidates for director should have certain minimum qualifications, including high ethical character, a reputation that enhances the image and reputation of

the Company, being highly accomplished and a leader in his or her respective field, relevant expertise and experience, the ability to exercise sound business judgment and the ability to work with management collaboratively and constructively. The Committee also values diversity. In addition, the Committee believes that at least one member of the Board should meet the criteria for an "audit committee financial expert" as defined by Securities and Exchange Commission rules and that at least two-thirds of the members of the Board should meet the definition of independent under the NASDAQ Stock Market listing standards and Securities and Exchange Commission rules. The Committee also believes the Company's Chief Executive Officer should participate as a member of the Board. A candidate recommended by a shareholder will be evaluated in the same manner as a candidate identified by the Committee.

COMPENSATION DISCUSSION AND ANALYSIS

Overview

ESI's fiscal year 2014 was challenging and the Company's performance did not meet our plans or expectations. As a result, none of the named executive officers received incentive compensation under ESI's short term incentive plan, and consequently compensation was below fiscal year 2014 target compensation levels. In addition, on February 23, 2014 Mr. Konidaris was removed as President and Chief Executive Officer of the Company, and Mr. Grady was appointed his successor. Mr. Konidaris' termination was a "without cause" termination under his employment agreement with ESI.

Named Executive Officers

The Company's named executive officers for fiscal 2014 were as follows:

- Edward C. Grady, President and Chief Executive Officer (appointed February 23, 2014)
- Nicholas Konidaris, President and Chief Executive Officer (April 1, 2013 - February 23, 2014)
- Paul Oldham, Vice President of Administration, Chief Financial Officer and Corporate Secretary
- Robert DeBakker, Vice President of Worldwide Operations
- Kerry Mustoe, Vice President of Finance, Corporate Controller and Chief Accounting Officer
- Bing-Fai Wong, Vice President of Customer Operations

Compensation Philosophy

The Board of Directors and the Committee believe that the Company's executive compensation programs should be related to both short-term and long-term corporate performance and improvement in shareholder value. The Company has developed a total compensation philosophy that ties a significant portion of executive compensation to achieving pre-established financial and operational results. The overall objectives of the executive compensation program are to:

- Attract and retain talented executives;
- Motivate executives to execute long-term business strategies while achieving near-term financial targets; and
- Align executive performance with the Company's short-term and long-term goals for delivering shareholder value.

The elements of the Company's compensation program for executives are base salary, annual cash incentives, equity incentives and a deferred compensation plan. Performance-based pay is a major element of executive compensation, which includes annual cash incentives and long-term stock-based equity incentives. Additionally, the Company also has an employee stock purchase plan, a 401(k) retirement plan and provides health care and other benefits to executives on the same basis as it does for all other employees. A limited number of key executives have change in control severance agreements, under which they are eligible to receive certain payments and benefits in the event of a termination of employment under certain circumstances following a change in control of the Company. The Company has not provided other perquisites to executive officers.

Each element of the Company's executive compensation program serves a somewhat different purpose, but in combination, the compensation program enables the Company to support its compensation philosophy and to offer compensation competitive with compensation at companies of similar size and complexity within high-technology electronics and similar industries.

The Committee believes that its total compensation philosophy should result in total compensation between the 50th and 75th percentile of similarly-situated executives in the peer group companies, assuming targeted performance results are achieved. Generally, the Committee targets the 50th percentile for solid performance, with the opportunity to achieve total compensation at the 75th percentile of similarly-situated executives for superior performance.

The Compensation Committee of the Board of Directors (the "Committee") consists entirely of independent non-employee directors as defined by the rules of the NASDAQ Stock Market, the Company's Corporate Governance Guidelines and the Committee's charter. The current members of the Committee are Barry L. Harmon (Chairman), David Nierenberg, and Jon D. Tompkins. Mr. Nierenberg replaced Edward C. Grady on the Committee on February 23, 2014 when Mr. Grady was appointed President and Chief Executive Officer. The Committee's authority and responsibilities are set forth in a charter adopted by the Board of Directors, which the Committee reviews annually. The Charter is available for review on the Company's Web site at www.esi.com.

The Committee reviews and approves the compensation of all of the Company's executives, including the Chief Executive Officer (CEO). The Committee has full authority to determine annual base salary and incentive compensation, equity

incentives and all other compensation for the executives. The Committee reviews and approves all equity grants to executives and annual equity grants to all other employees.

Determinations regarding annual cash incentives, long-term incentives and other elements of compensation were made consistent with the Committee's compensation philosophy and in a manner that the Committee believed to be appropriate and reasonable based on individual and corporate performance.

Base salary and incentive compensation award decisions for all executive officers are made at the first quarterly meeting of the Committee in each fiscal year in conjunction with the annual performance reviews for the prior fiscal year. The Committee reviews a tally sheet, which sets forth historic and current information regarding each element of compensation for each executive. It receives recommendations from the CEO as to compensation of other executives, and the CEO participates in discussions regarding their compensation. The Committee meets in executive session without the CEO to determine his compensation.

The Committee has engaged Compensia Inc., a national compensation consulting firm, as an independent outside compensation consultant with respect to executive and director compensation. The Committee has sole authority to retain and terminate Compensia. Compensia reports solely to the Committee for all services related to executive compensation, and did not provide any other services to the Company for fiscal year 2014, except for those related to executive and director compensation. The Committee has assessed the independence of Compensia taking into account, among other things, the factors set forth in Exchange Act Rule 10C-1 and the rules of the NASDAQ Stock Market, and has concluded that no conflict of interest exists with respect to the work that Compensia performs for the Committee.

Compensation-Related Risks

The Committee believes that the Company's executive incentive compensation arrangements do not encourage executives to take unnecessary or excessive risks that could threaten the value of the Company. For example, a significant portion of the executives' performance-based compensation is in the form of long-term equity incentives which generally vest over a three to four year period of time, thereby focusing the executives on the Company's long-term interests. As a matter of best practice, the Company will continue to monitor its executive compensation program to ensure that it continues to align the interest of executives with those of its long-term shareholders while avoiding unnecessary or excessive risk.

Competitive Positioning

The Committee uses comparative information from a group of similarly-situated business and labor market competitors as well as similarly-sized broad technology industry companies in reviewing the compensation of our executives. The compensation peer group for fiscal 2014 was unchanged from fiscal 2013 and consisted of the following companies:

Advanced Energy Industries, Inc	Nanometrics
Affymetrix	Newport Corporation
Coherent, Inc.	Rofin-Sinar Technologies
Cohu, Inc.	Rudolf Technologies
Cymer, Inc.	Ultratech, Inc
FEI Company	Veeco Instruments, Inc
IPG Photonics	II-VI
Intevac, Inc.	

Compensia completed the market analysis for fiscal 2014 executive compensation using publicly available peer group proxy filings, supplemented by the Radford January 2013 Hi-Tech Industry Survey peer company data and the Radford January 2013 High-Tech Industry Survey, broad high-tech industry data for companies with revenue of \$200 million to \$500 million (median of \$329 million). Data points were blended together to create a "market average". The committee believes that this range reflects the talent pool from which the Company competes for executive talent.

All Committee decisions with regard to executive compensation are made on an annual basis.

Consideration of Say-on-Pay Vote Results

The advisory (non-binding) proposal regarding compensation of the named executive officers submitted to shareholders at the 2013 Annual Meeting of Shareholders was approved by over 60% of the votes cast. The Committee considered this vote to reflect general alignment of the Company's executive compensation program with shareholder interests. In considering potential changes to the executive pay program, the Committee recognized that a significant portion of both short term and long term executive compensation is based on aggressive "stretch" performance goals. The committee considers it unlikely a

significant portion of those awards will vest and therefore the value of those awards should be deeply discounted in assessing executive compensation levels. In addition, 2013 compensation included the impact of dividend equivalent units related to outstanding restricted stock units associated with the \$2.00 per share special dividend issued by the Company, an event that is not expected to recur. As a result, actual compensation levels for 2014 are significantly lower than 2013 and consistent with the overall performance achieved by the Company. Finally, as noted earlier, the board removed Mr. Konidaris as CEO and appointed Mr. Grady. Mr. Grady's target equity compensation is lower than that of Mr. Konidaris in part due to the board's assessment of total compensation. As a result of these factors the Committee believes that the executive compensation program is aligned to shareholder interests and did not make any other substantive changes in response to that vote. The Company will conduct a say-on-pay vote annually.

Fiscal Year 2014 Compensation - The Year in Review

In setting executive compensation for fiscal 2014, the Committee reviewed the Company's existing compensation programs and philosophy in light of current industry compensation practices and trends. Applying this philosophy for each executive officer, the Committee reviewed base salary, annual cash incentives, long-term incentives and all other elements of total compensation and compared these components to comparable elements of compensation at the peer group companies.

Base Salaries

Base salary levels are reviewed annually at the first fiscal quarterly meeting of the Committee. Base salaries for executives are determined by evaluating the responsibilities of the position and the experience of the individual and by reference to the competitive marketplace for corporate executives, including a comparison to base salaries for comparable positions at the compensation peer group as provided by Compensia. The Committee establishes base salary compensation levels for executives, including the named executive officers, generally at levels approximating the 50th percentile of the compensation peer group. Individuals with outstanding performance in any given year may be provided with base pay up to the level of the 75th percentile of the compensation peer group. The Committee believes targeting these salary levels is necessary to attract and retain talented executives.

During fiscal 2014, Mr. Konidaris' annual base salary was \$590,000, a 3.5% increase to his base salary from the prior fiscal year, which placed him at approximately the 50th percentile for chief executive officers relative to the market cash compensation data and peer company proxy data. Mr. Grady was appointed President and Chief Executive Officer during late fiscal 2014 at an annual base salary of \$590,000, which the Committee considered appropriate given his overall qualifications, executive level experience and in comparison with market data.

Other named executive officers' received base salary increases ranging from 2% to 6%, which resulted in base salaries, in general, paid at the 50th percentile.

Annual Cash Incentive Compensation

The Company's executives are eligible to participate in an annual cash incentive plan. The performance objectives are established at the beginning of each fiscal year and are comprised of specific financial objectives based on the Company's annual operating plan (as approved by the Board of Directors) as well as individual and shared management objectives. The Company's financial performance objectives for fiscal 2014 were specified levels of revenues, operating income before taxes (OIBT) and gross margins. The OIBT and gross margin objectives are measured on a non-GAAP basis, consistent with the Company's reporting of these measures. The Committee selected these performance objectives because they believe maximizing revenue, operating income, and gross margins are critical to the Company's success. The Committee conditioned payments under the plan on achieving positive OIBT for the year. Because OIBT for fiscal 2014 was negative, none of the named executive officers received payments under the annual cash incentive plan, resulting in actual total direct compensation for fiscal year 2014 below target compensation levels.

The Company's Variable Pay Plans are split between a Management Incentive Plan (MIP) for the executives and most senior management levels and a Profit Sharing Plan (PSP). Participants for each plan were established at approximately 8% of the Company's employees in the Management Incentive Plan and approximately 92% in the Profit Sharing Plan.

Of the total awards available to each executive under the Management Incentive Plan for fiscal 2014, 33% of the award was based on a revenue objective, 33% was based on an OIBT objective, 29% was based on a shared executive objective based on gross profit and 5% was based on the executive's individual objectives (MBOs).

The 33% portion of the plan based on revenue and the 33% portion based on OIBT were designed to motivate and reward sales growth and positive operating income, which the Committee believes are important Company objectives. These objectives were based on achieving specific goals reviewed and approved by the Committee at the beginning of fiscal 2014.

The 29% portion of the plan based on the shared objective of gross margin improvement was designed to motivate executive teamwork and reward performance relative to one of the most critical Company-level objectives. The gross margin improvement objective was based on achieving specific gross profit levels and was reviewed and approved by the Committee at the beginning of fiscal 2014. All executives, including the CEO, shared the common gross margin objective.

The 5% portion of the plan related to MBOs was specific to each executive's key business initiatives and categorized by customer targeting, innovation and operational efficiency, as appropriate for the executive's position.

The Committee assigned each executive officer a percentage of base salary (the "targeted amount") which was to be used to calculate benefits under the MIP. The targeted amount for the CEO was targeted at 100% of base salary and the targeted amount for the other named executive officers ranged from 60%-70% of base salary. The percentage of target for the individual MBOs is determined for each executive separately based upon his or her performance and a review of the objectives as of the end of the fiscal year.

For fiscal year 2014, the Committee set a baseline plan, a minimum threshold amount and a maximum amount for revenue, OIBT and gross margin objectives for payouts under the MIP and results were calculated quarterly. If the OIBT attainment had exceeded the threshold of 100%, that attainment percentage would be used as a multiplier towards the annual payout based on the non-gross profit related MBO attainment percentage. This multiplier is used to recognize and reward the difficult group and individual stretch goals contained in the MBO portion and to create an upside to the MBO measure when the Company has exceeded the OIBT target. In addition, the Committee set a limit for total payments of cash incentive compensation for fiscal 2014 of 20% of non-GAAP operating income after the annual cash incentive compensation.

For fiscal 2014, the quarterly baseline targets and thresholds for revenue, OIBT and gross profit for the MIP and PSP are provided in the following table:

(In millions)	Revenue	OIBT	Gross Profit
Threshold	\$ 207.0	\$ 6.4	\$ 87.0
Target	256.3	34.2	119.0
Maximum	306.6	51.1	151.0

Mr. Konidaris' MBOs for fiscal year 2014 related to executive team development, improved customer intimacy and competitiveness in the marketplace. Other named executive officers' personal objectives for fiscal 2014 related to growth, innovation, gross margin, market share improvement, globalization, and operational efficiency, as appropriate for the executive's position.

Long-Term Incentive Compensation

To align shareholder and executive interests and to create incentives for improving shareholder value, the long-term incentive compensation component of the Company's fiscal 2014 executive compensation program consisted of a mix of 50% time-based restricted stock unit (TRSU) awards and 50% performance-based RSU (PRSU) awards. The program has two primary objectives: (1) to create incremental shareholder value and (2) to reward and retain high-impact employees.

Equity award amounts are generally established by the Committee at levels approximating the 50th percentile of the compensation peer group. The Committee believes this level of equity is appropriate for attracting and retaining talented executives. The Company determines grant sizes based on assessment of individual performance, current equity holdings and expected future contributions on the grant dates as compared to those of the companies in the compensation peer group.

Time-based Restricted Stock Unit Awards. TRSUs are intended to serve as a retention incentive for all executives. The TRSUs awarded during fiscal 2014 cliff vest on the third anniversary of the grant date, have a "double trigger" in the event of a change in control and are not to be otherwise prorated in the event of termination of employment prior to vesting (except for retirement in accordance with the Company's retirement policy and for the special provision in the event of Mr. Konidaris' earlier retirement described below).

Performance-based Restricted Stock Unit Awards. PRSUs entitle recipients to receive shares of the Company's common stock after a three year performance period. The PRSU's awarded in fiscal 2014 have revenue attainment measures as set forth in the fiscal 2014 strategic plan, with one third to vest based on attainment of revenues for fiscal 2015 and two-thirds to vest based on attainment of revenues for fiscal 2016. With respect to fiscal 2015, threshold vesting starts at 90% for achievement of 90% of fiscal 2015 plan revenues, and with respect to fiscal 2016, threshold vesting starts at 85% for achievement of 85% of fiscal 2016 revenues. Vesting for both years is 100% at the 100% achievement level of plan revenues and is capped at 200% vesting at the 150% achievement level of plan revenues. Given the aggressive revenue levels associated with the awards compared to current revenue levels, achievement of payout on the awards is not considered likely (see table below):

(In millions, except percentages)	2015 Revenue	Payout	2016 Revenue	Payout
Threshold	\$ 261.0	90%	\$ 284.8	85%
Target	290.0	100%	335.0	100%
Maximum	435.0	200%	502.5	200%

The awards have a “double trigger” in the event of a change in control and are not to be otherwise prorated in the event of termination of employment prior to vesting (except for retirement in accordance with the Company's retirement policy and for the special provision in the event of Mr. Konidaris' earlier retirement described below).

Dividend Equivalents on Restricted Stock Unit Awards (RSUs). Pursuant to the terms of the Company's RSU awards, upon the Company's payment of a dividend on its common stock, the number of units with respect to each award is increased by a number equal to the value of the dividends that would have been paid on the common stock deliverable pursuant to the award, divided by the closing market price of the Company's common stock on the dividend payment date. In fiscal 2014, the Company paid four quarterly dividends of \$0.08 each. The shares represented by the dividend are forfeitable if the associated awards do not vest.

During fiscal year 2014, each of the named executive officers was granted TRSUs and PRSUs, as follows:

<u>Name</u>	<u>TRSUs (#)</u>	<u>PRSUs (#)</u>
Nicholas Konidaris	63,000	63,000
Paul Oldham	22,500	22,500
Robert DeBakker	15,000	15,000
Kerry Mustoe	5,000	5,000
Bing-Fai Wong	15,000	15,000

The number of awards for each executive was intended to provide compensation between the 50th and 75th percentile of similarly situated executives in the peer group. In addition to the TRSUs he was granted as a Board member in early fiscal year 2014, Mr. Grady received an award of 63,853 Stock-Settled Stock Appreciation Rights (SOSARs) when he was appointed President and Chief Executive Officer. The Committee was advised that this award is commensurate with grants typically made to newly hired chief executives at his salary level.

In accordance with Mr. Konidaris' employment agreement, if he had retired, his PRSUs would have continued to vest for up to three years following his retirement and, with respect to his TRSUs, he would have received upon retirement a number of shares equal to the amount he would have received if he had three years' post-retirement vesting. Because Mr. Konidaris was terminated "without cause" under his employment agreement, his PRSUs continue to vest for two years post-termination based on actual performance, and vesting of his TRSUs will accelerate so that he receives a number of shares equal to the amount he would have received if he had two-years' post-retirement vesting.

Stock Ownership Guidelines

The Company maintains stock ownership guidelines for its executive management and directors.

The stock ownership guidelines for executive management are intended to further motivate executives to focus on company performance, drive high performance among individuals within the organization overall, and support the Company's compensation philosophy. The stock ownership guidelines require executive management to own and hold a specific number of shares of the Company's common stock with a value determined as follows:

- 3x base salary for CEO
- 1x base salary for Vice Presidents

The stock ownership guidelines for directors require them to own and hold an amount of common stock determined as a multiple of each director's annual retainer, which is then converted to specific number of shares of the Company's common stock. The guideline for directors is 3x the annual retainer.

Executives will have five years (or more, as may be necessary on a case by case basis) to achieve ownership levels. Shares owned outright, employee stock purchase plan shares, and unvested restricted stock units will be included. Vested or unvested stock options and stock appreciation rights are not included. With the exception of Mr. Grady who was recently appointed President and CEO, each of the Company's named executive officers has satisfied the applicable stock ownership guidelines.

Compensation Recovery

Under the Company's 2004 Stock Incentive Plan, the Board of Directors is permitted to suspend the exercise or vesting of an award if it believes a participant, other than a non-employee director, has engaged in certain acts of misconduct harmful to the Company. If it is determined that one of these acts has been committed by the recipient, no options or stock appreciation rights can be exercised by the participant and the restricted stock or restricted stock unit awards previously granted to the participant will be terminated. In addition, if the Board of Directors determines that an executive officer has engaged in an act

of embezzlement, fraud, or breach of fiduciary duty that contributed to an obligation to restate the Company's financial statements, the executive officer will be required to repay proceeds from the sale of equity awards within the 12-month period following the first public issuance or filing with the SEC of the financial statements required to be restated.

Anti-Hedging/Anti-Pledging Policy

The Company has adopted an insider trading policy which incorporates anti-hedging and anti-pledging provisions. Consequently, no employee, executive officer or director may enter into a hedge or pledge of the Company's common stock.

Change In Control and Severance Agreements

The Company entered into an employment agreement containing change in control and severance provisions with Mr. Konidaris in connection with his appointment as CEO of the Company in 2004. The Company also has change in control severance agreements in place for Messrs. DeBakker and Oldham entered into in 2006 and 2008, respectively. The Committee believes that these agreements could be an important factor in maintaining stability of the management team at a time when there is uncertainty about their continued employment by the Company.

The terms of the change in control severance agreements for these executive officers were established by the Committee to provide what it believes to be reasonable payments and benefits in the event of termination of employment following a change in control of the Company. These three agreements include gross-up provisions in the event the change in control payment triggers excise tax. At the time these agreements were entered into, the Committee believed that the gross-up provision was fair to executives in that it ensures the excise tax neither undoes the intended economic goals of the severance arrangement nor results in worse outcome for those executives who have deferred the exercise of options as compared to those who have exercised prior to a change of control. It was also viewed as an incentive for executives to stay through any transaction. See "Potential Payments upon Termination or Change in Control" in this proxy statement for more information regarding these agreements. The Company's current policy is not to provide for excise tax gross-ups in change in control agreements with executives. While the Company has change in control agreements with certain other executives, none provide for an excise tax gross-up.

Deferred Compensation Plan

Executives can generally elect to defer receipt of up to 50% of their base salary and 100% of their cash incentive compensation. Cash amounts credited to the deferred compensation plan will earn a rate of return based on investment funds selected by the participants from a prescribed menu of investment options. Generally, deferred amounts will be paid in a lump sum upon the date six months after termination of employment, except in the case of retirement, in which case the deferred amounts will be paid in a lump sum or in annual installments for five or 10 years, as elected by the executive. The Company sets aside deferred cash amounts in a grantor trust to cover the Company's obligation to pay deferred compensation.

Directors of the Board, Executive officers and other eligible employees may defer payment of RSUs granted to them by the Company. Issuance of shares of common stock is under the same terms as cash amounts.

The deferred compensation plan is offered to executives to allow them to defer more compensation than they otherwise would be permitted to defer under a tax-qualified retirement plan, such as the Company's 401(k) retirement plan. The Company offers the deferred compensation plan as a supplement to the 401(k) plan where employee contributions are limited and as a competitive practice to enable it to attract and retain top talent.

Other Benefits

The Company's executive officers are eligible to participate in the 401(k) retirement plan, employee stock purchase plan and health and welfare plans on the same basis as other employees. For 2014 the Company's policy was to match 50% of the first 6% of employee contributions, subject to Company profitability, on a quarterly basis. Because the Company was profitable in the second quarter but not the first, third and fourth quarters, the Company match was provided to employees who made contributions only during one quarter of 2014. The Company has not provided any other perquisites to its executive officers.

Deductibility of Compensation

It is the Company's policy to make reasonable efforts to cause executive compensation to be eligible for deductibility under Section 162(m) of the Internal Revenue Code. Under Section 162(m), the federal income tax deductibility of compensation paid to the Company's chief executive officer and to each of its three other most highly compensated executive officers other than its chief financial officer may be limited to the extent that such compensation exceeds \$1.0 million in any taxable year. Under Section 162(m), the Company may deduct compensation in excess of \$1.0 million if it qualifies as "performance-based compensation," as defined in Section 162(m).

It is possible that non-qualifying compensation paid to the Company's executives, such as salary and time-based restricted stock awards, may exceed \$1.0 million in a taxable year and therefore limit the deductibility by the Company of a portion of such compensation. The Company believes that all of the stock options, stock appreciation rights and performance-based restricted stock units granted to its executives under its shareholder approved plans should qualify under Section 162(m)

as performance-based compensation. The Committee may, from time to time, award compensation that will not be deductible for purposes of Section 162(m) if determined to be in the best interests of the Company and its stockholders.

- (1) Represents the incentive for fiscal year 2014 under the Company's annual executive team bonus plan and estimated payouts at threshold, target and maximum levels of performance. As the threshold was not reached, no incentive payouts were earned for fiscal year 2014.
- (2) Represents performance-based restricted stock unit awards (PRSUs). Vesting under these awards is based on two performance goals. Vesting of one-third of the restricted stock units awarded is based on the Company's sales in fiscal 2015 as compared to the revenue goals for that year set forth in the Company's current three-year strategic plan and two-thirds vest based on the Company's sales in fiscal 2016 as compared to the revenue goals for that year set forth in the Company's current three-year strategic plan. Of the PRSUs vesting based on fiscal 2015 sales, 100% vest on sales equal to the Company's revenue goal, with additional vesting in 20% increments for each 10% increment in sales above that amount, up to a maximum of 200% vesting on sales of 150% of the revenue goal. For sales below the revenue goal, 90% vest on sales equal to 90% of the goal and vest linearly up to 100%. There is no vesting if sales are below 90% of goal. Of the PRSUs vesting based on fiscal 2016 sales, 100% vest on sales equal to the Company's revenue goal for fiscal 2016, with additional vesting in 20% increments for each 10% increment in sales above that amount, up to a maximum of 200% vesting on sales of 150% of the revenue goal. For sales below the revenue goal, 85% vest on sales of 85% of the goal and vest linearly up to 100%. There is no vesting if sales are below 85% of the goal. The Company currently estimates both fiscal 2015 and 2016 targets will not be attained and has reflected a 0% attainment as the grant date fair value.
- (3) Represents stock-settled stock appreciation right granted on February 23, 2014 that vests annually on first three anniversaries of grant date, subject to employment criteria.
- (4) Represents restricted stock units granted on May 9, 2013 that vest 100% on May 9, 2016, subject to employment criteria.

Under the Company's nonqualified deferred compensation plan, executives can generally elect to defer receipt of up to 50% of their salary and 100% of their bonuses. Cash amounts credited to the deferred compensation plan will earn a rate of return based on investment funds selected by the participants from a prescribed menu of investment options. Generally, deferred amounts will be paid in a lump sum upon termination, except in the case of retirement, in which case the deferred amounts will be paid in a lump sum or in annual installments for up to ten years, as elected by the executive. Officers and other eligible employees may also defer payment of restricted stock units granted to them by the Company. Payment will be in shares of Company common stock under the same terms as cash amounts. The Company has set aside amounts in a grantor trust to cover the Company's obligation to pay deferred compensation.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

Severance and Change in Control Compensation

The Company has entered into agreements and maintains plans that will require the Company to provide compensation to certain named executive officers of the Company in the event of a termination of employment under various circumstances.

The Company entered into an employment agreement containing severance provisions with Nicholas Konidaris at the time of his employment as Chief Executive Officer of the Company. Under the terms of that agreement, Mr. Konidaris was entitled to certain benefits at the time he was terminated by the Company without cause. Mr. Konidaris' removal as President and Chief Executive Officer in February 2014 was without "cause" under his employment agreement. As such, he is entitled to receive the severance benefits described below under the agreement. Because Mr. Konidaris was entitled to a three month notice period under his employment agreement prior to the formal termination of his employment, he remained employed by the Company until May 24, 2014.

Mr. Konidaris' severance benefits are as follows:

- One year's base salary (\$590,000) paid over 12 months in accordance with the Company's normal pay cycle.
- Payment of the prorated bonus earned and payable for fiscal 2014, which is \$0.
- All of his stock options and stock-settled stock appreciation rights continue to vest two years post-termination and continue to be exercisable for three years past the termination date, but not to exceed the original term. All of these awards had exercise prices greater than the market value of the Company's stock on March 29, 2014.
- Vesting of his time-based restricted stock units accelerates with respect to all shares that would have vested within two years of the termination date. This results in 100% vesting of his outstanding time-based restricted stock unit awards because the last vesting date is less than two years from the termination date. The value of this benefit based on the closing stock price on March 29, 2014 of \$9.89 is \$4,183,726.
- Performance-based restricted stock awards will vest based on actual performance and will be prorated to the extent the performance period is more than two years following the termination date. Because all of the performance periods end within two years of the termination date, there will be no proration; however, it is anticipated no shares will vest because none of the performance criteria are expected to be achieved.

In addition, the Company has entered into change in control severance agreements with Robert DeBakker and Paul Oldham. Under the terms of these agreements, the officer is entitled to change in control benefits if he is terminated by the Company other than for cause, disability or retirement or if he terminates employment for good reason. "Cause" generally includes willful and continued failure to perform duties, the conviction of guilty or entering of a no contest plea to a felony that is materially injurious to the Company and the commission of an act that constitutes gross negligence or gross misconduct. "Good reason" generally includes a diminution of position or responsibilities, a reduction in base salary, bonus or incentive opportunity and a requirement to be based more than 50 miles from the principal office at which the executive was based immediately prior to the change in control.

Under these agreements, a "change in control" includes the following:

- Any merger or other reorganization of the Company where the holders of the outstanding voting securities immediately prior to the merger or reorganization do not continue to hold at least 50% of voting securities after the merger or reorganization;
- The sale of substantially all of the assets or the liquidation or dissolution of the Company;
- The nomination and election in a two-year period of a majority of directors by persons other than the incumbent directors, unless each new director elected during the two-year period was nominated or elected by two-thirds of the incumbent directors then in office and voting; and
- The acquisition by any person of 50% or more of the Company's outstanding voting securities.

The table below sets forth the estimated benefits payable to each named executive officer (other than Mr. Konidaris) under the following scenarios: (i) change in control of the Company on March 29, 2014, with (a) no termination of employment and (b) original awards or replacement awards continuing to vest per the original terms; (ii) change in control of the Company on March 29, 2014, with (a) no termination of employment and (b) the voting securities of the surviving company not listed on a national securities exchange or no replacement awards issued; (iii) change in control of the Company on March 29, 2014, and the named executive officer's employment is involuntarily terminated by the Company without cause or terminated by the named executive officer for good reason on March 29, 2014; and (iv) no change in control of the Company, and the named executive officer's employment is involuntarily terminated by the Company without cause or terminated by the named executive officer for good reason on March 29, 2014.

In May 2011, the Company modified the terms under which new grants of stock options, stock appreciation rights and restricted stock unit awards are made. Under the terms governing awards made prior to this time, the unvested portion of any

such award immediately vests upon a change of control with no termination of the holder's employment if the Company's common stock ceases to be exchange listed or if no replacement award is issued. Under the same circumstances, the terms of the more recent awards provide that the Company's board of directors may elect to convert the awards into replacement awards of the surviving or acquiring corporation, convert the awards into a cash payment obligation of the surviving or acquiring corporation, or cause all unvested awards to immediately vest.

Accordingly, under the second scenario below (change in control of the Company on March 29, 2014, with (a) no termination of employment and (b) the voting securities of the surviving company not listed on a national securities exchange or no replacement awards issued), the pre-May 2011 awards will immediately vest. Under the same scenario, the later awards will vest only if the Company's board of directors so elects. For purposes of the second scenario below, the figures are calculated under the assumption that such an election is made, which leads to a higher overall estimated benefit payable for each executive officer than if the Company's board of directors were to elect to convert such awards into replacement awards or into a cash payment obligation.

(2) Other Named Executive Officers with Change in Control Agreements

- a. Base Salary: Upon involuntary termination without cause or termination for good reason by the executive within 24 months of a change in control, payment of one times the annual base salary at the rate in effect immediately prior to the termination, with one-half payable in six monthly installments and the balance paid in a lump sum six months after the date of termination.
- b. Cash Bonus: Upon a change in control while executive is employed, lump sum payment of one times the greater of the target bonus or the performance against bonus criteria is due within 30 days of a change in control. Upon

involuntary termination without cause or termination for good reason by the executive within 24 months of a change in control, payment of one times the annual target cash bonus is due 6 months after termination. Amounts in the table are based on target amounts.

- c. Equity-based Awards: Amounts in the table are based on the closing stock price on March 29, 2014 of \$9.89 and the number of stock options or restricted stock units for which vesting is accelerated.
 - i. Stock Options (includes stock appreciation rights)
 - 1. Upon a change in control with no termination, all options will continue to vest per the original terms if the stock continues to be listed for trading. If the stock ceases to be listed for trading and replacement options are issued, they will have the same terms as the original options.
 - 2. Upon a change of control with no termination, all options will immediately vest if the stock ceases to be listed for trading and no replacement options are issued, and with respect to options issued in May 2011 or thereafter, if the board of directors so elects.
 - 3. Upon involuntary termination without cause or termination by the executive for good reason within 24 months following a change in control, all options will immediately vest.
 - 4. Upon involuntary termination without cause or termination by the executive for good reason, if no change in control has occurred, the option may be exercised only to the extent that it is vested at termination.
 - ii. Restricted Stock Unit Awards
 - 1. Upon a change in control with no termination, all awards will continue to vest per the original terms if the stock continues to be listed for trading. If the stock ceases to be listed for trading and replacement awards are issued, they will have the same terms as the original awards.
 - 2. Upon a change of control with no termination, all awards will immediately vest if the stock ceases to be listed for trading and no replacement awards are issued, and with respect to awards issued in May 2011 or thereafter, if the board of directors so elects. In the case of performance-based restricted stock units, the units will vest based on the greater of target or actual performance, regardless of whether the acquirer's stock is listed for trading. Deemed attainment of 100% was used for calculations in this table.
 - 3. Upon involuntary termination without cause or termination by the executive for good reason within 24 months following a change in control, all awards will immediately vest. Performance-based restricted stock units will be immediately adjusted based upon deemed attainment of target performance or actual performance, if greater, and will immediately vest. Deemed attainment of 100% was used for calculations in this table.
 - 4. Upon involuntary termination without cause or termination by the executive for good reason, if no change in control has occurred, (i) all pre-May 2011 awards will immediately vest by a pro rata percentage and (ii) awards granted beginning in May 2011 will be cancelled to the extent they are unvested at termination. Upon retirement in accordance with the Company's retirement policy and if no change of control has occurred, all awards will immediately vest by a pro rata percentage.
 - d. Other Benefits: Upon involuntary termination without cause or termination for good reason by the executive within 24 months of a change in control, 12 months of health and dental insurance will be provided to the executive and his covered dependents.
 - e. Tax Gross-Up: If payments made to executive in connection with a change of control as defined under Section 280G of the Internal Revenue Code, including vesting of equity-based awards, would subject executive to excise tax under Section 4999 of the Internal Revenue Code, then executive will receive an additional amount so that, after payment of all taxes, executive will receive the same amount he would have received had the underlying payments not been subject to excise tax.
- (3) Other Named Executive Officers without a Change in Control Agreement
- a. Equity-based awards: Amounts in the table are based on the closing stock price on March 29, 2014 of \$9.89 and the number of stock options or restricted stock units for which vesting is accelerated.
 - b. Stock option (includes stock appreciation rights) agreements contain the same provisions as described in Footnote 2.c.i above, except for Edward C. Grady, whose agreement states that stock appreciation rights shall immediately vest if upon a change of control the recipient is terminated without cause or the employment or service is terminated by the executive for good reason before the one year anniversary of the change in control.
 - c. Restricted stock unit agreements contain the same provisions as described in Footnote 2.c.ii above.

Other Benefits Triggered upon Termination due to Death or Disability

At fiscal year-end 2014, the named executive officers held outstanding options (including stock appreciation rights) and unvested restricted stock units as set forth in the Outstanding Equity Awards table above. The stock option and stock appreciation rights agreements governing all options and stock appreciation rights provide that if an optionee's employment terminates because of death or total disability, the option may be exercised at any time before the expiration date of the award or the date 12 months after the date of termination, whichever is the shorter period, but only if and to the extent the optionee

was entitled to exercise the option at the date of termination. Restricted stock unit agreements provide for prorated acceleration of the award if the executive ceases to be an employee by reason of death or total disability.

The following table shows the values of the restricted stock units, stock options and stock appreciation rights that would have accelerated vesting if the named executive officer's employment had terminated as of March 29, 2014 due to death or disability.

<u>Named Executive Officer</u>	<u>Death or Disability (1)</u>
Paul Oldham	\$ 729,634
Robert DeBakker	\$ 442,383
Kerry Mustoe	\$ 318,181
Bing-Fai Wong	\$ 406,507

(1) Amounts in this column represent the number of restricted stock unit shares with accelerated vesting, multiplied by the closing market price of the Company's common stock on March 29, 2014 of \$9.89.

Management has the primary responsibility for the financial statements and the reporting processes including the systems of internal controls.

The Audit Committee discussed with the Company's independent auditors the overall scope and plans for their audit. The Audit Committee meets with the independent auditors, with and without management present, to discuss the results of their examination, their evaluation of the Company's internal and disclosure controls and the overall quality of the Company's financial reporting.

In connection with the Company's audited financial statements for the fiscal year ended March 29, 2014, the Audit Committee (1) reviewed and discussed the audited financial statements with management; (2) discussed with the independent

auditors the matters required to be discussed by Auditing Standard No. 16, as adopted by the Public Company Accounting Oversight Board (PCAOB); and (3) received the written disclosures and the letter from the independent auditors required by applicable requirements of the PCAOB regarding the independent auditors' communications with the Audit Committee concerning independence and discussed with the independent auditors the independent auditors' independence.

Based upon these reviews and discussions, the Audit Committee has recommended to the Board of Directors, and the Board of Directors has approved, that the Company's audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended March 29, 2014 for filing with the Securities and Exchange Commission.

By the Audit Committee:

Robert R. Walker, Chairman
Frederick A. Ball
Richard J. Faubert

The approval must be reported to the Audit Committee at its next regularly scheduled meeting.

PROPOSAL 2: AMENDMENT TO INCREASE THE NUMBER OF SHARES RESERVED FOR ISSUANCE UNDER THE 1990 EMPLOYEE STOCK PURCHASE PLAN

The 1990 Employee Stock Purchase Plan ("ESPP") provides a convenient and practical means by which employees may purchase the Company's shares through payroll deductions. The Board of Directors believes that the ESPP promotes the interests of the Company and its shareholders by encouraging employees to become shareholders, and therefore promotes the Company's growth and success. The Board also believes that the opportunity to acquire a proprietary interest in the success of the Company through the acquisition of shares pursuant to the ESPP is an important aspect of the Company's ability to attract and retain highly qualified and motivated employees. As of June 13, 2014, out of a total of 3,400,000 shares reserved for issuance under the ESPP, 3,209,909 shares had been issued, leaving 190,091 shares available for issuance under the ESPP. The Board of Directors believes additional shares will be needed under the ESPP to provide appropriate incentives to employees. Accordingly, on May 15, 2014, the Board of Directors approved an amendment to the ESPP, subject to shareholder approval, to reserve an additional 1,000,000 shares for issuance under the ESPP, thereby increasing the total number of shares of the Company's Common Stock reserved for issuance under the ESPP from 3,400,000 to 4,400,000.

The Board of Directors has also approved an amendment of the Company's 2004 Stock Incentive Plan reducing the number of shares reserved for issuance thereunder by 1,000,000. The amendment to the 2004 Stock Incentive Plan is contingent on shareholders approving this amendment to the ESPP. The effect of these two amendments taken together is that the number of shares reserved for issuance under the 2004 Stock Incentive Plan would be reduced by 1,000,000 shares and the number of shares reserved for issuance under the ESPP would be increased by 1,000,000 shares. As of June 13, 2014, out of a total of 9,004,877 shares reserved for issuance under the 2004 Stock Incentive Plan, 2,210,511 shares had been issued, 3,790,124 were subject to outstanding awards, and 3,004,242 shares were available for grant.

The provisions of the ESPP are summarized below. The complete text of the ESPP, marked to show the proposed amendment, is attached to this Proxy Statement as Appendix A.

The ESPP is administered by the Board of Directors. The Board has the power to make and interpret all rules and regulations it deems necessary to administer the ESPP. The Board of Directors has delegated to the Compensation Committee of the Board the authority for general administration of the ESPP.

All full-time employees of the Company and all full-time employees of each of the Company's subsidiary corporations which are designated by the Board of Directors as corporate participants in the Plan are eligible to participate in the Plan.

The Plan is implemented by a series of overlapping 24-month offerings (the "Offerings"), with a new Offering commencing on February 15, May 15, August 15 and November 15 of each year. Accordingly, up to eight separate Offerings may be in process at any time, but an employee may only participate in one Offering at a time. The first day of each Offering is the "Offering Date" for that Offering and each Offering ends on the second anniversary of its Offering Date. Each Offering is divided into eight three-month Purchase Periods, one of which ends on each February 14, May 14, August 14 and November 14 during the term of the Offering. The last day of each Purchase Period is a "Purchase Date" for the applicable Offering. The purchase price per share is equal to 85% of the lower of (a) the fair market value of the Company's Common Stock on the Offering Date or (b) the fair market value of the Company's Common Stock on the Purchase Date. If the fair market value of the Company's Common Stock on the first day of a new Offering is less than or equal to the fair market value of the Company's Common Stock on the first day of any ongoing Offering, employees participating in the ongoing Offering will be automatically withdrawn from the ongoing Offering and enrolled in the new Offering. Participants may elect to contribute from 1% to 15% of compensation paid to the participant during each pay period in the Offering. Funds accumulated for a participant are used to purchase shares of Company Common Stock on the Purchase Date.

No participant may obtain a right to purchase shares under the ESPP if, immediately after the right is granted, the participant owns or is deemed to own shares of the Company's Common Stock possessing five percent or more of the combined voting power or value of all classes of stock of the Company or any subsidiary of the Company. The maximum number of shares that a participant may purchase on any given Purchase Date is 500 shares. In addition, no participant may obtain a right to purchase shares under the ESPP that permits the participant's rights to purchase shares under the ESPP to accrue at a rate which exceeds \$25,000 in fair market value of the Company's Common Stock (determined as of the Offering Date) for each calendar year of the Offering.

Neither payroll deductions credited to a participant's account nor any rights with regard to the purchase of shares under the ESPP may be assigned, transferred, pledged or otherwise disposed of in any way by the participant. Upon termination of a participant's employment for any reason prior to the Purchase Date, the payroll deductions credited to the participant's account will be returned to the participant.

Shares purchased under the ESPP are delivered to and held in the custody of a custodian (the "Custodian"), which is an investment or financial firm appointed by the Board of Directors. By appropriate instructions to the Custodian, an employee may from time to time sell all or part of the shares held by the Custodian for the participant's account in the public market at the market price at the time the order is executed. Also by appropriate instructions, the employee may transfer all or part of the shares held for that employee by the Custodian to the employee or to a regular individual brokerage account in the employee's own name.

The ESPP will terminate when all of the shares reserved for purposes of the ESPP have been purchased, provided that the Board of Directors in its sole discretion may at any time terminate the ESPP completely.

The Board of Directors may at any time amend the ESPP in any and all respects provided that without shareholder approval the Board may not increase the number of shares reserved for the ESPP (except for adjustments in the event of stock dividends, reverse or forward stock splits, combinations of shares, recapitalizations or other changes in the outstanding stock) or decrease the purchase price of shares offered pursuant to the ESPP.

Material Federal Income Tax Consequences

The ESPP is intended to qualify as an "employee stock purchase plan" within the meaning of Section 423 of the Internal Revenue Code of 1986, as amended (the "Code"). Under the Code, employees will not recognize taxable income or gain with respect to shares purchased under the ESPP either at the Offering Date or the Purchase Date of an Offering. If an employee disposes of shares purchased under the ESPP more than two years after the Offering Date and more than one year after the Purchase Date, or in the event of the employee's death at any time after purchase, the employee or the employee's estate generally will be required to recognize ordinary compensation income in the taxable year of disposition or death equal to the lesser of (a) the excess of the fair market value of the shares at the time of disposition or death over the applicable purchase price, or (b) 15 percent of the fair market value of the shares on the Offering Date. Any gain on the disposition in excess of the amount treated as ordinary compensation income, or any loss, generally will be capital gain or loss and will be long-term capital gain or loss if the employee is treated as having held the shares for more than one year after the purchase. In the case of such a disposition or death, the Company will not be allowed an income tax deduction for the ordinary compensation income recognized by the employee.

If an employee disposes of shares purchased under the ESPP within two years after the Offering Date or within one year after the Purchase Date (a "disqualifying disposition"), the employee generally will be required to recognize ordinary compensation income in the taxable year of disposition equal to the excess of the fair market value of the shares on the Purchase Date over the applicable purchase price. If the disposition is by sale, any difference between the fair market value of

the shares on the Purchase Date and the disposition proceeds generally will be capital gain or loss, and will be long-term capital gain or loss if the employee is treated as having held the shares for more than one year. In the event of a disposition within two years after the Offering Date, subject to certain limitations such as the \$1,000,000 annual cap on deductibility under Section 162(m) of the Code, the Company generally will be entitled to a deduction from income in the year of such disposition equal to the amount the employee is required to report as ordinary compensation income.

Purchases under the ESPP

The following table indicates shares purchased under the ESPP during the last fiscal year by the named executive officers, by all executive officers as a group and by all employees (excluding executive officers) as a group:

<u>Name</u>	Shares Purchased in Fiscal 2014	
	<u>Dollar Value (1)</u>	<u>Number of Shares</u>
Nicholas Konidaris (2)	\$ 3,838	2,000
Edward C. Grady	\$ —	—
Paul Oldham	\$ 3,838	2,000
Robert DeBakker	\$ 3,838	2,000
Bing-Fai Wong	\$ 1,777	1,042
Kerry Mustoe	\$ 3,838	2,000
All current executive officers (5 persons)	\$ 13,291	7,042
All employees, excluding executive officers	\$ 488,624	258,682

- (1) “Dollar Value” equals the difference between the price paid for shares purchased under the ESPP and the fair market value of the shares on the date the shares were purchased.
- (2) Mr. Konidaris ceased to be an executive officer of the Company on February 23, 2014.

Vote Required for Approval and Recommendation by the Board

THE BOARD OF DIRECTOR UNANIMOUSLY RECOMMENDS A VOTE FOR THE PROPOSAL TO APPROVE THE AMENDMENT TO INCREASE THE NUMBER OF SHARES RESERVED FOR ISSUANCE UNDER THE 1990 EMPLOYEE STOCK PURCHASE PLAN. FOR THIS PROPOSAL TO PASS AT THE ANNUAL MEETING, MORE SHARES MUST BE VOTED IN FAVOR OF THE PROPOSAL THAN AGAINST THE PROPOSAL. ABSTENTIONS AND BROKER NON-VOTES ARE COUNTED FOR PURPOSES OF DETERMINING WHETHER A QUORUM EXISTS AT THE ANNUAL MEETING BUT ARE NOT COUNTED AND HAVE NO EFFECT ON THE RESULTS OF THE VOTE ON THE PROPOSAL. IF NO INSTRUCTIONS ARE GIVEN, PROXIES WILL BE VOTED FOR APPROVAL OF THE ADOPTION OF THIS PROPOSAL.

PROPOSAL 3: RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

KPMG LLP audited the Company’s financial statements for the fiscal year ended March 29, 2014 and has been appointed to audit the Company’s financial statements for the fiscal year ending March 28, 2015. While not required, the Board of Directors is submitting this appointment for ratification by the shareholders. Representatives of KPMG LLP are expected to attend the meeting, where they are expected to be available to respond to appropriate questions and, if they desire, to make a statement.

If the appointment is not ratified, the Audit Committee will consider whether it should select another independent registered public accounting firm to audit the Company’s financial statements.

This proposal will be approved if a majority of the votes cast at the annual meeting are voted “FOR” this proposal. Abstentions and “broker non-votes” will not be counted as votes cast and therefore will not affect the determination as to whether this proposal is approved.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THE RATIFICATION OF THE SELECTION OF KPMG LLP AS ESI'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE 2015 FISCAL YEAR.

PROPOSAL 4: ADVISORY VOTE ON EXECUTIVE COMPENSATION

The Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act"), enacted in July 2010, and Section 14A of the Securities Exchange Act of 1934 (the "Exchange Act") require that we ask our shareholders to approve, on a nonbinding, advisory basis, the compensation of our named executive officers as disclosed in this proxy statement (commonly known as a "say-on-pay" proposal). This vote is not intended to address any specific element of compensation, but rather the overall compensation of our named executive officers. This shareholder vote on executive compensation is advisory only, and is not binding on the Company, our Board of Directors or the Compensation Committee.

As discussed in more detail in the "Compensation Discussion and Analysis" above, our executive compensation program is designed to attract, motivate and retain talented executive officers; to motivate progress toward achieving pre-established corporate financial objectives and individual operational objectives, while balancing rewards for short-term and long-term performance; and to align the interests of our executive officers with those of shareholders. Executive compensation for all executive officers is benchmarked against similarly-situated executive officers at peer group companies, and reviewed annually. We believe that the 2014 fiscal year compensation of our named executive officers was appropriate and aligned with the Company's 2014 fiscal year results.

Accordingly, we are asking our shareholders to approve the following resolution:

"RESOLVED, that the Company's shareholders approve, on an advisory basis, the compensation of the named executive officers, as disclosed in the Company's Proxy Statement for the 2014 Annual Meeting of Shareholders pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the 2014 Summary Compensation Table and the other related tables and disclosures."

This proposal will be approved if a majority of the votes cast at the annual meeting are voted "FOR" this proposal. Abstentions and "broker non-votes" will not be counted as votes cast and therefore will not affect the determination as to whether this proposal is approved.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THE APPROVAL OF THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS, AS DISCLOSED IN THIS PROXY STATEMENT.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's executive officers, directors and persons who own more than ten percent of the Common Stock to file reports of ownership and changes in ownership with the Securities and Exchange Commission (SEC). Executive officers, directors and beneficial owners of more than ten percent of the Common Stock are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms they file. Based solely on a review of the copies of such forms received by the Company and on the written representations from certain reporting persons that they have complied with the relevant filing requirements, the Company believes that its executive officers and directors have complied with all applicable Section 16(a) filing requirements for transactions during the 2014 fiscal year.

APPENDIX A

ELECTRO SCIENTIFIC INDUSTRIES, INC. 1990 EMPLOYEE STOCK PURCHASE PLAN As Amended*

1. **Purpose of the Plan.** Electro Scientific Industries, Inc. (the "Company") believes that ownership of shares of its Common Stock by employees of the Company and its Participating Subsidiaries (hereinafter defined) is desirable as an incentive to better performance and improvement of profits, and as a means by which employees may share in the rewards of growth and success. The purpose of the Company's 1990 Employee Stock Purchase Plan (the "Plan") is to provide a convenient means by which employees of the Company and Participating Subsidiaries may purchase the Company's shares through payroll deductions and a method by which the Company may assist and encourage such employees to become share owners.

2. **Shares Reserved for the Plan.** There are ~~3,400,000~~ **4,400,000** shares of the Company's authorized but unissued or reacquired Common Stock, no par value, reserved for purposes of the Plan. The number of shares reserved for the Plan and other share limits in the Plan are subject to adjustment in the event of any stock dividend, stock split, combination of shares, recapitalization or other change in the outstanding Common Stock of the Company. The determination of whether an adjustment shall be made and the manner of any such adjustment shall be made by the Board of Directors of the Company, which determination shall be conclusive.

3. **Administration of the Plan.** The Plan shall be administered by the Board of Directors. The Board of Directors may promulgate rules and regulations for the operation of the Plan, adopt forms for use in connection with the Plan, and decide any question of interpretation of the Plan or rights arising thereunder. The Board of Directors may consult with counsel for the Company on any matter arising under the Plan. All determinations and decisions of the Board of Directors shall be conclusive. Notwithstanding the foregoing, the Board of Directors, if it so desires, may delegate to the Compensation Committee of the Board the authority for general administration of the Plan.

4. **Eligible Employees.** Except as indicated below, all full-time employees of the Company and all full-time employees of each of the Company's subsidiary corporations or which is designated by the Board of Directors of the Company as a participant in the Plan (such participating subsidiary being hereinafter called a "Participating Subsidiary") are eligible to participate in the Plan. Any employee who would, after a purchase of shares under the Plan, own or be deemed (under Section 424(d) of the Internal Revenue Code of 1986, as amended (the "Code")) to own stock (including stock subject to any outstanding options held by the employee) possessing 5 percent or more of the total combined voting power or value of all classes of stock of the Company or any parent or subsidiary of the Company, shall be ineligible to participate in the Plan. A "full-time employee" is one who is in the active service of the Company or a Participating Subsidiary excluding, however, any employee whose customary employment is 20 hours or less per week or whose customary employment is for not more than five months per calendar year.

5. **Offerings.**

(a) **Offerings and Purchase Periods.** Beginning January 15, 2008, the Plan shall be implemented by a series of overlapping 24-month offerings (the "Offerings"), with a new Offering commencing on February 15, May 15, August 15 and November 15 of each year; provided, however, that in 2008 the first Offering will commence on January 15 rather than February 15. Accordingly, up to eight separate Offerings may be in process at any time, but an employee may only participate in one Offering at a time. The first day of each Offering is the "Offering Date" for that Offering and each Offering shall end on the day before the second anniversary of its Offering Date.

Each Offering shall be divided into eight three-month Purchase Periods, one of which shall end on each February 14, May 14, August 14 and November 14 during the term of the Offering. The last day of each Purchase Period is a "Purchase Date" for the applicable Offering. Notwithstanding the foregoing, (1) any Offering that began on or before October 15, 2007 shall be governed by the Plan as amended October 15, 2004 (including applicable Purchase Dates on January 14, April 14, July 14 and October 14), and (2) the Offering that begins on January 15, 2008 shall end on February 14, 2010 and the first Purchase Date relating to such Offering shall be on May 14, 2008.

* Matter in bold and underlined is new; matter crossed-out has been deleted

(b) **Grants; Limitations.** On each Offering Date, each eligible employee shall be granted an option under the Plan to purchase shares of Common Stock on the Purchase Dates for the Offering for the price determined under paragraph 7 of the Plan exclusively through payroll deductions authorized under paragraph 6 of the Plan; provided, however, that (a) no option shall permit the purchase of more than 500 shares on any Purchase Date, and (b) no option may be granted under the Plan that would allow an employee's right to purchase shares under all stock purchase plans of the Company and its parents and subsidiaries to which Section 423 of the Code applies to accrue at a rate that exceeds \$25,000 of fair market value of shares (determined at the date of grant) for each calendar year in which such option is outstanding.

(c) **Insufficient Shares.** If there is an insufficient number of reserved shares of Common Stock to permit the full exercise of all existing rights to purchase shares, or if the legal obligations of the Company prohibit the issuance of all shares purchasable upon the full exercise of such rights, the plan administrator shall make a pro rata allocation of the shares remaining available in as nearly a uniform and equitable manner as possible, based pro rata on the aggregate amounts then credited to each participant's account. In such event, payroll deductions to be made shall be reduced accordingly and the plan administrator shall give written notice of such reduction to each participant affected thereby. Any amount remaining in a participant's account immediately after all available shares have been purchased will be promptly remitted to such participant. Determinations made by the plan administrator in this regard shall be final, binding and conclusive on all persons. No deductions shall be permitted under the Plan after the Company determines that no shares are available.

6. **Participation in the Plan.**

(a) **Initiating Participation.** An eligible employee may participate in an Offering under the Plan by filing with the Company no later than 4:00 p.m., Pacific time on the Offering Date for the Offering in which the employee desires to participate, forms furnished by the Company, a subscription and payroll deduction authorization. Once filed, a subscription and payroll deduction authorization shall remain in effect for Offerings unless amended or terminated. The payroll deduction authorization will authorize the employing corporation to make payroll deductions from each of the participant's paychecks during an Offering other than a paycheck issued on the Offering Date. Payroll deductions from any paycheck may not be less than 1 percent or more than 15 percent of the gross amount of base pay plus commissions, if any, payable to the participant for the period covered by the paycheck. If payroll deductions are made by a Participating Subsidiary, that corporation will promptly remit the amount of the deductions to the Company.

(b) **Amending or Terminating Participation.** After a participant has begun participating in the Plan by initiating payroll deductions, the participant may not amend the payroll deduction authorization except that (a) a participant may amend payroll deductions once during each calendar quarter and (b) the participant may terminate participation in the Plan at any time prior to the tenth day before a Purchase Date by written notice to the Company. A permitted change in payroll deductions shall be effective for any pay period only if written notice is received by the Company at least three business days prior to the payroll effective date published by the Company for that pay period. Participation in the Plan shall also terminate when a participant ceases to be an eligible employee for any reason, including death or retirement. A participant may not reinstate participation in the Plan with respect to a particular Offering after once terminating participation in the Plan with respect to that Offering. Upon termination of a participant's participation in the Plan, all amounts deducted from the participant's pay and not previously used to purchase shares under the Plan shall be returned to the participant.

(c) **Suspension of Payroll Deductions When Limitations on Participation Are Exceeded.** As a result of the limitations described above under paragraph 5(b), the amount of a participant's payroll deductions during any portion of an Offering may exceed the maximum amount that can be applied to purchase shares on the next Purchase Date of that Offering. If this occurs, then, as soon as practicable following the participant's written request (or earlier in the Company's discretion), payroll deductions from the participant shall be suspended and any such excess amounts shall be refunded to the participant. Such suspension shall not result either in termination of the participant's participation in the Offering or ineligibility of the participant for enrollment in any new Offering. Payroll deductions at the rate set forth in the participant's then effective payroll deduction authorization form shall automatically resume for any period under the Plan during which, after application of the limitations in paragraph 5(b), the participant is eligible to purchase any Common Stock under the Plan on the next Purchase Date unless the participant terminates participation in accordance with paragraph 6(b).

7. **Option Price.** The price at which shares shall be purchased on any Purchase Date in an Offering shall be the lower of (a) 85% of the fair market value of a share of Common Stock on the Offering Date of the Offering (or the preceding trading day if the Offering Date is not a trading day) or (b) 85% of the fair market value of a share of Common Stock on the Purchase Date (or the preceding trading day if the Purchase Date is not a trading day). The fair market value of a share of Common Stock on any date shall be the closing price of the Common Stock on that trading day as reported by NASDAQ or, if the Common Stock is not reported on NASDAQ, such other reported value of the Common Stock as shall be specified by the Board of Directors.

8. **Automatic Withdrawal and Re-enrollment.** If the fair market value of a share of Common Stock on any new Offering Date is less than or equal to the fair market value of a share of Common Stock on the participant's current Offering Date, every participant in that Offering shall automatically (a) be withdrawn from such Offering after the acquisition of the shares of Common Stock on such Purchase Date that precedes the new Offering Date and (b) be enrolled in the new Offering commencing on the day after such Purchase Date.

9. **Purchase of Shares.** All amounts withheld from the pay of a participant shall be credited to his or her account under the Plan by the Custodian appointed under paragraph 10. No interest will be paid on such accounts, unless otherwise determined by the Board of Directors. On each Purchase Date, the amount of the account of each participant will be applied to the purchase of whole shares by such participant from the Company at the price determined under paragraph 7. Any cash balance remaining in a participant's account after a Purchase Date because it was less than the amount required to purchase a full share shall be retained in the participant's account for the next Purchase Period. Any other amounts in a participant's account after a Purchase Date as a result of the limitations in paragraph 5(b) will be repaid to the participant.

10. **Delivery and Custody of Shares.** Shares purchased by participants pursuant to the Plan will be delivered to and held in the custody of such investment or financial firm (the "Custodian") as shall be appointed by the Board of Directors. The Custodian may hold in nominee or street name certificates for shares purchased pursuant to the Plan, and may commingle shares in its custody pursuant to the Plan in a single account without identification as to individual participants. By appropriate instructions to the Custodian on forms to be provided for that purpose, a participant may from time to time (a) transfer into the participant's own name of all or part of the shares held by the Custodian for the participant's account and delivery of such shares to the participant; (b) transfer of all or part of the shares held for the participant's account by the Custodian to a regular individual brokerage account in the participant's own name, either with the firm then acting as Custodian or with another firm, or (c) sell all or part of the shares held by the Custodian for the participant's account at the market price at the time the order is executed and obtain remittance of the net proceeds of sale to the participant. Upon termination of participation in the Plan, the participant may elect to have the shares held by the Custodian for the account of the participant transferred and delivered in accordance with (a) above, transferred to a brokerage account in accordance with (b), or sold in accordance with (c).

11. **Records and Statements.** The Custodian will maintain the records of the Plan. As soon as practicable after each Purchase Date each participant will receive a statement showing the activity of his account since the preceding Purchase Date and the balance on the Purchase Date as to both cash and shares. Participants will be furnished such other reports and statements, and at such intervals, as the Board of Directors shall determine from time to time.

12. **Expense of the Plan.** The Company will pay all expenses incident to operation of the Plan, including costs of record keeping, accounting fees, legal fees, commissions and issue or transfer taxes on purchases pursuant to the Plan and on delivery of shares to a participant or into his or her brokerage account. The Company will not pay expenses, commissions or taxes incurred in connection with sales of shares by the Custodian at the request of a participant. Expenses to be paid by a participant will be deducted from the proceeds of sale prior to remittance.

13. **Rights Not Transferable.** The right to purchase shares under this Plan is not transferable by a participant, and such right is exercisable during the participant's lifetime only by the participant. Upon the death of a participant, any shares held by the Custodian for the participant's account shall be transferred to the persons entitled thereto under the laws of the state of domicile of the participant upon a proper showing of authority.

14. **Dividends and Other Distributions.** Cash dividends and other cash distributions, if any, on shares held by the Custodian will be paid currently to the participants entitled thereto unless the Company subsequently adopts a dividend reinvestment plan and the participant directs that his or her cash dividends be invested in accordance with such plan. Stock dividends and other distributions in shares of the Company on shares held by the Custodian shall be issued to the Custodian and held by it for the account of the respective participants entitled thereto.

15. **Voting and Shareholder Communications.** In connection with voting on any matter submitted to the shareholders of the Company, the Custodian will cause the shares held by the Custodian for each participant's account to be voted in accordance with instructions from the participant or, if requested by a participant, will furnish to the participant a proxy authorizing the participant to vote the shares held by the Custodian for the participant's account. Copies of all general communications to shareholders of the Company will be sent to participants participating in the Plan.

16. **Tax Withholding.** Each participant who has purchased shares under the Plan shall immediately upon notification of the amount due, if any, pay to the Company in cash amounts necessary to satisfy any applicable federal, state and local tax withholding determined by the Company to be required. If the Company determines that additional withholding is required beyond any amount deposited at the time of purchase, the participant shall pay such amount to the Company on demand. If the participant fails to pay the amount demanded, the Company may withhold that amount from other amounts payable by the Company to the participant, including salary, subject to applicable law.

17. **Responsibility and Indemnity.** Neither the Company, its Board of Directors, the Custodian, any Participating Subsidiary, nor any member, officer, agent, or employee of any of them, shall be liable to any participant under the Plan for any mistake of judgment or for any omission or wrongful act unless resulting from gross negligence, willful misconduct or intentional misfeasance. The Company will indemnify and save harmless its Board of Directors, the Custodian and any such member, officer, agent or employee against any claim, loss, liability or expense arising out of the Plan, except such as may result from the gross negligence, willful misconduct or intentional misfeasance of such entity or person.

18. **Conditions and Approvals.** The obligations of the Company under the Plan shall be subject to compliance with all applicable state and federal laws and regulations, compliance with the rules of any stock exchange on which the Company's securities may be listed, and approval of such federal and state authorities or agencies as may have jurisdiction over the Plan or the Company. The Company will use its best effort to comply with such laws, regulations and rules and to obtain such approvals.

19. **Amendment of the Plan.** The Board of Directors of the Company may from time to time amend the Plan in any and all respects, except that without the approval of the shareholders of the Company, the Board of Directors may not increase the number of shares reserved for the Plan or decrease the purchase price of shares offered pursuant to the Plan.

20. **Termination of the Plan.** The Plan shall terminate when all of the shares reserved for purposes of the Plan have been purchased, provided that the Board of Directors in its sole discretion may (a) elect to continue the Plan in connection with the reservation of additional shares for purposes of the Plan or (b) at any time terminate the Plan without any obligation on account of such termination, except as hereinafter in this paragraph provided. Upon termination of the Plan, the cash and shares, if any, held in the account of each participant shall forthwith be distributed to the participant or to the participant's order, provided that if prior to the termination of the Plan, the Board of Directors and shareholders of the Company shall have adopted and approved a substantially similar plan, the Board of Directors may in its discretion determine that the account of each participant under this Plan shall be carried forward and continued as the account of such participant under such other plan, subject to the right of any participant to request distribution of the cash and shares, if any, held for his account.
